

Little Cotton Rabbits

A chart for Toadstools

This little design for a group of toadstools is best worked in duplicate stitch/ Swiss darning but if you prefer you can work it using an intarsia method. I have a duplicate stitch tutorial here if you'd like more info on how to work this technique: https://littlecottonrabbits.typepad.co.uk/my_weblog/2014/07/duplicate-stitch.html

After working the toadstool shapes you can embroider small dots with the white yarn on the top of each cap.
